

About Future Wonder

Future Wonder is an IT Consultancy specializing in software development and architecture, UX / UI, testing, infrastructure, staff augmentation, vendor management, and creating marketing materials and pitch decks. We work with informed clients; and those who need IT coaching to develop their businesses. Our clients include fintech companies, cutting-edge Indiana software startups and other established businesses.

Job description

Our 2025 web development internship is open for applications through mid-May. You will work with our design and development teams on internal projects and client engagements during Summer 2025 using a variety of tools and technologies. This is an exciting opportunity to learn new technical skills in a supportive team of more experienced peers. The work will be paid at an hourly rate of \$17.

Education

- Our internship candidates should be studying for an Associate's or Bachelor's degree in computer science or a related field.
- We will also consider graduates from an accredited tech program with good references.

Requirements

- Authorization to work in the U.S.; this includes OPT / CPT programs
- At least 2 solid academic or work references
- Willingness to work on a qualifying online coding exercise, including communication and follow ups
- Experience developing web based applications with HTML, CSS & JavaScript
- ReactJS experience, or another similar framework like Angular or Vue
- Wants to engage in a fun environment while learning and developing with the rest of the team!

Desirable to have

- Experience working with and building backend API endpoints, ideally in Python or Node
- Experience with SQL (e.g. PostgreSQL) and/or NoSQL (e.g. MongoDB) database backed applications
- Exposure to application UI / UX designs and how to implement them
- Knowledge of version control (e.g. GitHub, BitBucket) and Continuous Integration (e.g. Jenkins, CircleCI)
- Automated testing experience
- Comfortable diving into cloud-based development operations
- Understanding of LLM AI models and their current limitations

Location

We are located in Bloomington, Indiana at [The Dimension Mill](#).

To Apply

Please apply with a cover letter, resume and unofficial transcript to jobs@futurewonder.com. Why is working at Future Wonder a great fit for you; and why should we be interested in hiring you? Include the information below in your cover letter:

- A short bio / introduction
- Your background in web development and computer related technologies
- Why this internship interests you

We encourage all IU Students to apply via our posting in [Handshake](#).
